“The Silencing Of God Seminar”

As believers in God, we are blessed with a rich endowment in our country. With **HIS** blessing and Providence, our founding fathers carved out a nation that guaranteed the freedom of religious expression and the rights which religious people have enjoyed for the past two-plus centuries. This was done against seemingly insurmountable odds. These founders understood that they needed God’s blessing for such an undertaking, and made that need known in hundreds of recorded documents. **Today, the secular community is pursuing an all out effort to silence the influence of the One Who Blessed Their Undertaking and shaped their thoughts and writings in establishing such freedoms. The secular community will not be content until they silence the voice of God among our people! Secular Humanists have openly declared an agenda to destroy faith in God and the persistent influence that believers in God exercise within our communities.**

We at the Broad Street congregation in Scottsboro are excited to share with you the news that Dr. Dave Miller, Director of Apologetics Press in Montgomery, Alabama is scheduled to be in Scottsboro for three days, February 29-March 2, and conduct his **“The Silencing of God: *The Dismantling of America’s Christian Heritage*”** Seminar at the Broad Street Church of Christ auditorium. Dr. Miller is a widely acclaimed researcher, writer, defender of the Faith, and Gospel Preacher. You might enjoy browsing the web site for Apologetics Press. Go to: www.apologeticspress.com

On Friday and Saturday evenings, February 29 and March 1, we’ll have two lectures with only a brief intermission each night from 7:00 to 9:00 P. M. Dr. Miller will be speaking on related matters during our normal Bible Study and Worship hours on Sunday, March 2, followed by lunch in our multi-purpose room and an afternoon final lecture. This last session will actually be the fifth part of his five-part series and is set to begin at 1:00 P. M. To our readers from neighboring congregations, you’ll have time to attend your normal services if you like and still come for lesson five of this five-part series at 1:00 P. M. If any would like to hear his 9:00 and 9:55 A. M. Sunday worship presentations and join us for lunch, you would be most welcome.

In Dr. Miller’s words, ***“Christian values and principles are under attack. Liberal forces of ‘political correctness’ and an unrestrained judiciary are waging a cultural war aimed at the removal of every manifestation of God, Christ and the Bible from American life.”***
